

BREATHER
FOR YOUR
BUSINESS

Relocating Your Business?

TRY BREATHER

BREATHER

Established in 2013, Breather's business is simple - provide spaces ready for work. We offer 'ready-to-move-in' office spaces that have been specifically designed for this purpose.

At Breather, we have our own in-house teams that look after the space. These teams ensure the spaces are up to the mark in terms of utilities and other modern-day workspace requirements.

With the rise of remote employees and the 'work from home' model, flexibility is the name of the game. And Breather's services have become even more valuable in the post-COVID world.

If you're relocating your business, Breather fits in perfectly with your plans. Whether you need a space for a few days or more for your team before you settle down in your new offices, you can count on Breather.

IN AN INNOVATIVE ENVIRONMENT

AFFORDABLE WORKSPACES

Small to medium-sized companies often struggle with this - whether or not to rent the office space they like. Such businesses feel budget constraints the most.

This is where we come in. Whether you're looking to book a space for a few hours or need to relocate your office as a whole to a better space, Breather provides the perfect solution.

Over the years, we have assembled a huge network of workspaces. From medium-sized open areas to compact office spaces, Breather probably has the right workspace for your team.

If you're looking for a place to set up your new office, Breather can help you with that too. Maybe you just need a place to have an important meeting with no distractions, you can count on us to find you one!

The best in businesses understand what the right workspace can do. Steve Jobs, fanatic about unplanned collaborations, famously had a great atrium space built in the Pixar campus. And we all know the magic that was created in that space.

What is your business up to? You can select from the many, many workspaces Breather offers and see where your team will work its magic.

HOW DOES BREATHER WORK?

The idea of Breather is quite simple really, offering a peaceful workspace for the customer. This on-demand structure is perfect in this day and age. People tend to move around when it comes to work and need a new place to hit their laptop to get cracking at the job.

In fact, with the advent of freelancing, businesses tend to favor this kind of model, to hire for a specific job and pay them for it, rather than hiring full time. Such freelancers need a space to put their minds to labor.

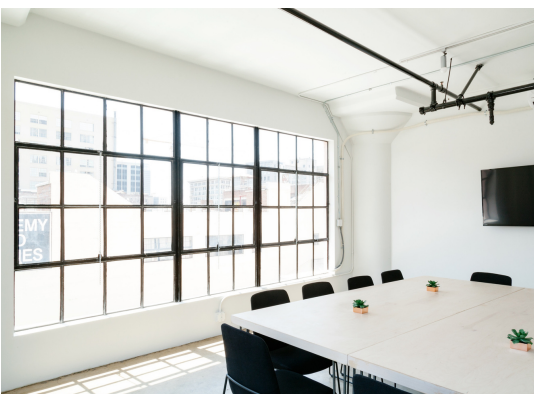

By simply going on the Breather application or website, you can find a nearby workspace.

PERFECT FOR SMALL TO MEDIUM-SIZED BUSINESSES

The same goes for small to medium-sized businesses. There can be several reasons why a company would like to move. It can range from rent getting too much or the building too old.

Whatever the reason, we can help small to medium-sized businesses find the perfect workspace at the right budget. For small companies, you can move into a new location that's suitably near for all your employees. The shorter commute and lower travel costs will make any employee happy.

In fact, this can work at an even bigger advantage. For a business with multiple locations, you can spread out your workspace to different locations across the city.

A BREATHER FOR COMPANIES DURING THE PANDEMIC

In the wake of the COVID-19 pandemic, social distancing has become an integral part of our life, including worklife. With Breather, you can have your employees work at different locations.

Work from home is also a possibility but not everyone lives alone. With families, esp. kids, it's not that simple. We've all seen the videos of kids crashing online meetings.

Many people find it hard to get in 'work-mode' in such situations. At Breather, we can help you in this regard as well. There's also an option for small to medium-sized companies to only book spaces for a specific day and certain period.

This way the employee can get to the workspace, do their work and leave once they're done. If there's no work in any of the following days, you won't need to book a space at all. This is called a touchdown workspace.

Such spaces are perfect to have close to the employees' homes. Moreover, a space can be booked for a company meeting as well. If there's an important project coming up and you need to gather the team, we can offer you a space that has all the modern-day amenities.

Only you, and any member of your team, will have the access codes to enter the premises. Book the space for any specific day and the number of hours, and you're good to go.

HOW BREATHER CAN SERVE A BUSINESS LOOKING TO RELOCATE

For companies looking to relocate and therefore searching for short-term office space, Breather's vast network probably has just what you're looking for.

You can look at the number of office spaces across your preferable locations. Your team can have the space all to yourselves without any disturbances. A chance to focus and innovate!

Additionally, we will set you up with one of our in-house dedicated teams. These teams are responsible for catering to any specific requirements you may have.

Small and medium-sized businesses can benefit from having a space that comes pre-equipped with all the things required to do their best work. Wi-Fi, whiteboards, high-def LED TVs, charging docks and other such amenities make a world of difference.

If you need to change things up, our Breather team can set up meeting areas and presentation rooms as well. With 24/7 customer support, a local Breather team and dedicated account manager, you get hands-on help whenever needed!

CONTACT BREATHER TODAY

So, are you looking to relocate? Need a breather? Contact Breather! We promise distraction-free space, flexible floor plans, hands-on help and transparent pricing, among other things. We can ensure your transition to a new office to be as seamless as possible.
